

# REMEMBERING 9/11

September 11, 2001, the world looked on in horror as terrorists flew hijacked passenger planes into New York City's mighty twin towers, destroying the iconic buildings and killing more than 2,700 people.

Through the retelling of the events in Remembering 9/11, we go beyond the facts and explore the background of the perpetrators, we examine the political landscape and the Government's response, bringing you the stories from those at Ground Zero who witnessed first hand the chaos, tragedy and suffering including rescue workers, survivors and victims families; to one perpetrator who through his own faith and beliefs committed the unthinkable.

Remembering 9/11 is a powerful mix.

A visual timeline of the events together with moving stories of courage and conviction.
